Bečka & Bečka Next Collectie

Bečka & Bečka Next collectie

Begin 2015 hebben architect Mik Bečka en zijn dochter, keramisch vormgever Inge Bečka, met veel succes de B&B Collectie gelanceerd. Zij presenteerden op diverse tentoonstellingen en beurzen hun indrukwekkende 'Gesammtwerk' bestaande uit 50 porseleinen cilinders met verschillende grafische, organische en kleurrijke dessins.

Inmiddels is het vervolg, de B&B NEXT Collectie, vol in ontwikkeling. Deze nieuwe collectie is uniek vanwege de toepassing van de dessins op zowel luxe porseleinen borden, vazen, kommen etc. als op eigen ontwerp meubilair en interieur. Mik heeft tafels ontworpen in RVS of staal in diverse bewerkingen.

Bečka & Bečka Next Collection

In early 2015 architect Mik Bečka and his daughter, ceramic designer Inge Bečka, launched their B&B Collection to great acclaim. In several exhibitions and fairs they presented their impressive 'Gesammtwerk', consisting of 50 porcelain cylinders with various graphic, organic and colourful designs. Currently its sequel, the B&B NEXT Collection, is in full development. This new collection is unique for the application of the designs on luxurious porcelain plates, vases, bowls et cetera, as well as on furniture and interior of their own design. Mik designed tables in stainless steel or steel in various treatments.

* From the various designs, the tabletop of your choice can be printed in high-quality epoxy or glass and mounted onto the frame. The epoxy tabletops can also be used as a rear wall in the kitchen or as a shower wall in the bathroom.
